Hello Louise,

I refer to the Access included for site GA (before) and after plans, where can I find a visual plan of how the developer wishes to use this new land that they have acquired? Re the plan in the document titled 'Supplementary Statement of Common Ground - Feb 2018', is this the proposal of how the land should look post development? I'm trying to ascertain what level of countryside is proposed to be retained in the 'after' plan, as currently there is woodland/playing area or whether additional housing is being proposed as well as a vehicular access under the overhead electricity corridor? I've attached for your ease of reference all 3 diagrams.

(See attached file: SiteGA2.pdf)

I look forward to hearing from you.

Kind regards,

Julie Wood
